RAILROADS MUST PRODUCE BOOKS TO SHOW CONFISCATORY RATES

Washington, D. C., June 25.—Nothing short of actual book accounts of railroad receipts and expenditures in interstate business will be accepted by the supreme court of the United States as a basis of annulling rates as confiscatory, according to the written opinion of justice Hughes in the Arkansas rate cases. Justice Hughes announced the mere decision of the court that the freight and 2 cent passenger rates in that state were not confiscatory on the court's last decision day, June 16, and has been engaged in writing the opinion in the cases since that day.

RESINOL HEALS BABY'S SUMMER SKIN TROUBLES

If baby is suffering with summer eczema, prickly heat, heat rash, chafing, insect-bites, or any of the other distressing hot weather skin irritations, give him a warm bath with Resinol Soap and put a little Resinol Ointment on the sore places. The itching and smarting stop at once, sleep becomes possible, and, under this gentle, easy treatment, the trouble soon disappears.

After that, a daily bath with Resinol Soap is usually enough to keep baby's delicate, easily irritated skin clear and healthy through the hottest summer weather.

You need never hesitate to use Resinol. It is a doctor's prescription that has been used by other physicians for 18 years in the treatment of all sorts of skin affections. It contains absolutely nothing that could injure the tenderest skin. Practically every drug-gist sells Resinol Ointment and Resinol Soap, but you can test them at our expense if you prefer. Send to Dept. 56-S, Resinol, Baltimore, Md., the liberal sampler.—Advertisement.

STRONG NAVY IS INSURANCE FOR PEACE, SAYS DEWEY

"Inadequacy is an Invitation to War," Declares Honorable Naval Officer of the United States.

Washington, D. C., June 25.—An adequate American navy means a fleet second only to that of Great Britain and "inadequacy is an invitation to war," in the opinion of admiral Dewey, ranking naval officer of the United States.

"I believe it is the duty of each generation to pay its own insurance and not to thrust its burdens on the generations that come after, and the insurance for peace is a navy, strong enough to compel it," says the admiral, in an article written for the Navy day program at Newport, R. I., July 2. "The only function and justification for the existence of a navy is the preservation of peace. To perform this function, the navy must be adequate, and though so much discussion is devoted to the word 'adequate' in these recent times, the word 'adequate' is applied to the navy but one meaning. An adequate navy is a navy of a strength sufficient to meet any probable enemy. This strength is not absolute, it is relative and varies from period to period, the naval powers of the world vary their naval strength. At the present period 'adequacy' on our part calls for a navy second in strength to that of England only."

"We, ourselves, through lack of foresight of forefathers and grandfathers, paid the petty debt of our generation in the loss of hundreds of thousands of lives and our sons and grandsons have been paying the cost of billions of dollars wasted and the hundreds of millions in pensions for which they were mortgaged; and they still continue to pay."

"We are paying today for the navy, as an insurance which does not insure us, roughly \$1.20 per capita per annum. Besides what has already been paid in lives and money we are still mortgaged, by lack of foresight in our fathers, to the extent of the national debt and the additional \$1.80 per capita per annum that we are paying in pensions."

"Shall our lack of foresight continue this system of mortgaging the coming generations or shall we add the relatively small sum needed to the insufficient insurance we all pay to make that insurance adequate?"

Now Are the Days Children Need Care

Summer Heat Dangerous to Little Ones Whose Bowels Are Neglected.

A mother cannot do better for her children than to teach them from their earliest days regularity of the bowels. Regularity can be promoted without the child knowing it by watching its food and by so varying the food that all the elements of digestion are used, when nature will do the rest. The future health of the child depends upon this.

But try as you will there are times when the little one will become constipated and bilious. In hot weather immediate attention is necessary, as many serious diseases result from stuffed-up bowels. Don't give salts or cathartics or purgatives, as they are too harsh, but give a gentle, pleasant-tasting bowel stimulant like Dr. Caldwell's Syrup Pepsin. It has been used by the children of this as well as a former generation, and thousands of families are proud to speak well of it, among whom we can mention Mrs. Louise Reynolds, 509 Jackson St., Lynchburg, Va., who is glad to recommend it, and Mr. Chas. W. Allen, Manor, Tex., who writes that he often felt 100 years old, but feels younger now than his years.

Every drug-gist sells Dr. Caldwell's

Syrup Pepsin, and the price is only fifty cents and one dollar a large bottle. It will cure constipation and biliousness in young or old, break up a cold and stop summer diarrhoea by ridding the bowels of the poisons and germs that cause the trouble. It is a grand family laxative, with valuable tonic properties.

Families wishing to try a free sample bottle can obtain it, postpaid, by addressing Dr. W. B. Caldwell, 418 Washington St., Monticello, Ill.
